

USER CONTROLLED HOME LOCATION REGISTER

## ABSTRACT OF THE DISCLOSURE

5           A personal home location register (HLR) (10-20) is  
modifiable directly by a user. The personal HLR then  
communicates with a telecommunications service provider  
(30) to directly affect changes in the personal HLR.  
The network HLR (70) of the telecommunications service  
10 provider simply points to the personal HLR of the user.
